**I am made
of cotton -
the movement.**

CÍRCULO

Circulo is a proudly member of the movement "I am made of cotton" which embraces sustainable fashion and values the main and primary source used in Brazilian fashion: cotton.

THE MOVEMENT

“I am made of cotton” is a unique movement that started in 2016 in Brazil aiming to bring awareness about sustainable fashion consumption.

We take in consideration all parts of the process such as the production chain and the textile industry, from the cotton fields to the final consumer.

Cotton is a natural, light fiber that is associate with tropical environments due to its comfortable touch. Brazil is the largest sustainable cotton supplier in the world and our initiative contributes to an environmentally, friendly, socially and economically sustainable product.

When you choose cotton, you not only value the origin of clothes but help to maintain an environmentally correct system that supplies the entire world and consequently creates more jobs.

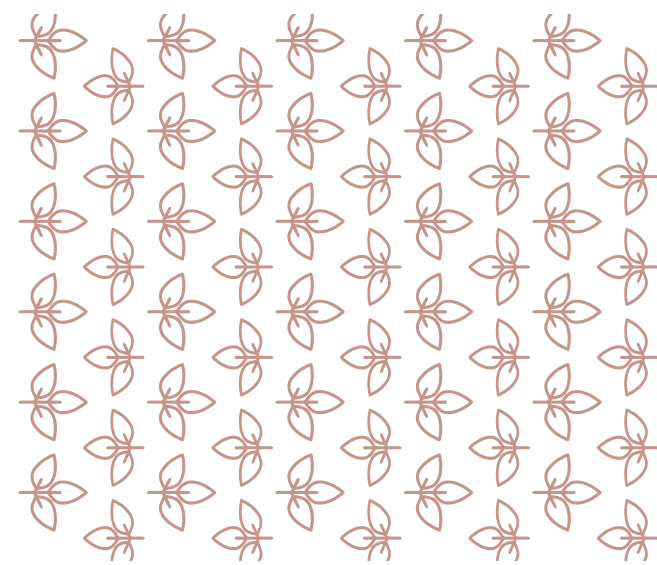

Círculo is

part of the movement!

These are the products that have more than 70% cotton in their composition and receive the “I am made of cotton” seal.
